

## Extension - Cordless

The Cordless Extension includes a Yealink W56 handset and base station and is ideal for users that require the ability to move around your surgery but still retain the key call features offered by the Surgery Connect system.

The extension combines long battery life with quick charging and incorporates HD audio ensuring staff that are not always desk based can always be reached.

## High Definition Audio

Where available on both phones in the call, the phone uses the latest in Hi Fi phone audio, for maximum call quality and intelligibility.
