

Inclusive Rental

Surgery Connect has an extension based rental fee, meaning you only pay for what you need. Should you need to increase or decrease the number of extensions you require, the rental figure increases or decreases accordingly giving you a flexible and scalable service and pricing structure.

Hardware & Support

The service rental covers the supply, installation, support and warranty of all of the hardware needed for the extensions you require including free hardware replacements should they develop technical faults. The call routing and logic aspect is fully tailored and configured around your extensions giving you a fully functional and efficient system.

Our UK based Support department are available via phone, email or through our ticketing system to solve any issues or questions you may have.

One Single, Simple Bill

As we supply your complete telephone system you will receive one simple, monthly bill covering your entire telecom needs. Surgery Connect includes unlimited UK landline and mobile minutes you will have no unexpected charges.

Your Account Manager is on hand to discuss any questions or requests you have and any additions or enhancements to the Surgery Connect system will be made available to you at no extra charge.
